

# Foster Care Welcome Packs

## Items List

Our goal in providing welcome packs is to come along side children and foster families and show them that they are not alone. The welcome packs help so much during the first few days when children are placed. With new item donations from individuals we are able to give customized welcome packs to foster children shortly after they are placed in a new home. Inside each pack is the basic necessities and comfort items needed to transition to a new environment.
